Derivative Assets and Liabilities - Forwards										2

* The credit rating of each counterparty (as rated by S&P Global Ratings, a division of S&P Global) of the forward foreign currency contracts held by the Pool meets or exceeds the minimum designated rating.

** See corresponding reference number on the Schedule of Investment Portfolio.

Supplemental Schedule to Schedule of Investment Portfolio

Offsetting Arrangements (note 2d)
(in 000s)

The Pool may enter into various master netting arrangements or other similar agreements that do not meet the criteria for offsetting in the Statements of Financial Position but still allow for the related amounts to be set off in certain circumstances, such as bankruptcy or the termination of the contracts.

The following table reconciles the net amount of "Over-The-Counter" derivatives presented in the Statements of Financial Position, as at August 31, 2023, to:

- The gross amount before offsetting required under IFRS; and
- The net amount after offsetting under the terms of master netting arrangements or other similar arrangements, but which do not meet the criteria for offsetting under IFRS.

As at August 31, 2022, the Pool did not enter into any arrangements whereby the financial instruments were eligible for offset.

Financial Assets and Liabilities	Amounts Offset			Amounts Not Offset		Net
	Gross Assets (Liabilities)	Amounts Offset Under IFRS	Net Amounts Presented on Statements of Financial Position	Master Netting Arrangements	Cash Collateral Received	
As at August 31, 2023						
OTC Derivative Assets	\$ 2	\$ -	\$ 2	\$ -	\$ -	\$ 2
OTC Derivative Liabilities	-	-	-	-	-	-
Total	\$ 2	\$ -	\$ 2	\$ -	\$ -	\$ 2

Interests in Underlying Funds (note 4)

As at August 31, 2023 and 2022, the Pool had no investments in underlying funds where the ownership exceeded 20% of each underlying fund.

Financial Instrument Risks

Investment Objective: CIBC Conservative Fixed Income Pool (referred to as the *Pool*) will focus on generating regular income by investing primarily in units of other mutual funds (its *Underlying Funds*) that invest in fixed income securities.

Investment Strategies: The Pool will, under normal market conditions, employ a disciplined long-term strategic asset allocation approach as the principal investment strategy. The Pool may invest up to 100% of its assets in Underlying Funds, including mutual funds and exchange-traded funds managed by us or our affiliates, and up to 10% of its net asset value may be invested in units of Underlying Funds which are alternative funds. The Pool may tactically allocate to adjust its asset mix over the short- to medium-term based on changes in the market outlook and the Underlying Funds' ability to meet the Pool's stated investment objectives. The Pool may have exposure through its Underlying Funds to fixed income securities rated below investment grade, with the allocation to these issues typically ranging between 5% and 15%.

As the Pool invests in the Underlying Funds, it may be indirectly exposed to concentration, credit, currency, and interest rate risks from these holdings. Only direct exposure to significant risks that are relevant to the Pool is discussed here. General information on risk management and specific discussion on concentration, credit, currency, interest rate, liquidity, and other price/market risk can be found in note 2 of the financial statements.

In the following risk tables, Net Assets is defined as meaning "Net assets attributable to holders of redeemable units".

Concentration Risk as at August 31, 2023 and 2022

The Schedule of Investment Portfolio presents the securities held by the Pool as at August 31, 2023.

The following table presents the investment sectors held by the Pool as at August 31, 2022, and groups the securities by asset type, industry sector, geographic region, or currency exposure:

As at August 31, 2022

Portfolio Breakdown	% of Net Assets
Mutual Funds	
Canadian Bond	66.9
International Bond	11.0
Canadian Equities	3.1
Canadian Bonds	15.1
International Bonds	3.0
Other Assets, less Liabilities	0.9
Total	100.0

Credit Risk

Credit ratings represent a consolidation of the ratings provided by various outside service providers and are subject to change, which could be material.

See the Schedule of Investment Portfolio for counterparties related to over-the-counter derivative contracts, where applicable.

As at August 31, 2023 and 2022, the Pool had no significant investments in debt securities.

Currency Risk

The tables that follow indicate the currencies to which the Pool had significant exposure as at August 31, 2023 and 2022, based on the market value of the Pool's financial instruments (including cash and cash equivalents) and the underlying principal amounts of forward foreign currency contracts, as applicable.

As at August 31, 2023

Currency (note 2g)	Total Currency Exposure* (\$000s)	% of Net Assets
USD	2,222	3.0

* Amounts reflect the carrying value of monetary and non-monetary items (including the notional amount of forward foreign currency contracts, if any).

As at August 31, 2022

Currency (note 2g)	Total Currency Exposure* (\$000s)	% of Net Assets
USD	2,407	3.0

* Amounts reflect the carrying value of monetary and non-monetary items (including the notional amount of forward foreign currency contracts, if any).

The table that follows indicates how net assets as at August 31, 2023 and 2022 would have decreased or increased had the Canadian dollar strengthened or weakened by 1% in relation to all foreign currencies. This analysis assumes that all other variables remain unchanged. In practice, the actual results may differ from this analysis and the difference could be material.

	August 31, 2023	August 31, 2022
Impact on Net Assets (\$000s)	22	24

Interest Rate Risk

As at August 31, 2023 and 2022, the majority of the Pool's financial assets and liabilities are non-interest bearing and short-term in nature; accordingly, the Pool is not subject to significant amounts of risk due to fluctuations in the prevailing levels of market interest rates.

The accompanying notes are an integral part of these financial statements.

CIBC Conservative Fixed Income Pool

Liquidity Risk

Liquidity risk is the risk that the Pool will encounter difficulty in meeting obligations associated with financial liabilities. The Pool is exposed to daily cash redemptions of redeemable units. The Pool maintains sufficient cash on hand to fund anticipated redemptions.

With the exception of derivative contracts, where applicable, all of the Pool's financial liabilities are short-term liabilities maturing within 90 days after the period end.

For pools that hold derivative contracts with a term-to-maturity that exceeds 90 days from the period end, further information related to those contracts can be referenced in the derivative schedules following the Schedule of Investment Portfolio.

Other Price/Market Risk

The table that follows indicates how net assets as at August 31, 2023 and 2022 would have increased or decreased had the value of the Pool's benchmark(s) increased or decreased by 1%. This change is estimated based on the historical correlation between the return of Series A units of the Pool as compared to the return of the Pool's benchmark(s), using 36 monthly data points, as available, based on the monthly net returns of the Pool. This analysis assumes that all other variables remain unchanged. The historical correlation may not be representative of the future correlation and, accordingly, the impact on net assets could be materially different.

Benchmark(s)	Impact on Net Assets (\$000s)	
	August 31, 2023	August 31, 2022
FTSE Canada Universe Bond Index	405	468

Fair Value Measurement of Financial Instruments

The following is a summary of the inputs used as at August 31, 2023 and 2022 in valuing the Pool's financial assets and financial liabilities, carried at fair value:

As at August 31, 2023

Classification	Level 1 (i) (\$000s)	Level 2 (ii) (\$000s)	Level 3 (iii) (\$000s)	Total (\$000s)
Financial Assets				
Investment Funds	14,607	57,610	627	72,844
Derivative assets	–	2	–	2
Total Financial Assets	14,607	57,612	627	72,846

- (i) Quoted prices in active markets for identical assets
- (ii) Significant other observable inputs
- (iii) Significant unobservable inputs

As at August 31, 2022

Classification	Level 1 (i) (\$000s)	Level 2 (ii) (\$000s)	Level 3 (iii) (\$000s)	Total (\$000s)
Financial Assets				
Investment Funds	10,403	68,337	–	78,740
Total Financial Assets	10,403	68,337	–	78,740

- (i) Quoted prices in active markets for identical assets
- (ii) Significant other observable inputs
- (iii) Significant unobservable inputs

Transfer of assets between Level 1 and Level 2

Financial assets and liabilities transferred from Level 1 to Level 2 are the result of securities no longer being traded in an active market.

For the periods ended August 31, 2023 and 2022, there were no transfers of financial assets and liabilities from Level 1 to Level 2.

Financial assets and liabilities transferred from Level 2 to Level 1 are the result of securities now being traded in an active market.

	August 31, 2023	August 31, 2022
Fair value of assets transferred from Level 2 to Level 1 during the period (\$000s)	6,550	–

Reconciliation of financial asset and liability movement - Level 3

For the period ended August 31, 2022, the Pool did not hold any significant positions of Level 3 investments at the beginning of, during, or at the end of the period.

The following table shows a reconciliation of all movements in the Level 3 financial assets and liabilities from the beginning of the period until the end of the period, for the period ended August 31, 2023:

As at August 31, 2023

	Financial Assets Fixed Income Securities (\$000s)	Financial Assets Equities (\$000s)	Total Financial Assets (\$000s)	Total Financial Liabilities (\$000s)	Total Financial Assets and Liabilities (\$000s)
Balance, beginning of period	–	–	–	–	–
Purchases	–	600	600	–	600
Sales	–	–	–	–	–
Net transfers	–	–	–	–	–
Realized gains (losses)	–	–	–	–	–
Change in unrealized appreciation (depreciation)	–	27	27	–	27
Balance, end of period	–	627	627	–	627
Total change in unrealized appreciation (depreciation) for assets held at the end of the period	–	27	27	–	27

The Manager utilizes a variety of valuation techniques and assumptions in determining the fair value of securities classified as Level 3. Those techniques include the use of comparable recent arm's length transactions, discounted cash flow models, and other techniques commonly used by market participants and which rely on the use of observable inputs such as broker quotations, industry multipliers and discount rates. Changes in the inputs used may cause material changes in the fair value of the financial instruments held by the Pool.

Notes to Financial Statements

As at and for the periods as disclosed in the financial statements (see note 1)

1. CIBC Fixed Income Pools — Organization of the Pools and Financial Reporting Periods

The CIBC Fixed Income Pools consist of CIBC Conservative Fixed Income Pool, CIBC Core Fixed Income Pool, and CIBC Core Plus Fixed Income Pool.

Each of the CIBC Fixed Income Pools (referred to individually, as a *Pool*, and collectively, as the *Pools*) is a mutual fund trust, organized under the laws of Ontario and governed by a declaration of trust (referred to as the *Declaration of Trust*). The address of the Pools' head office is 81 Bay Street, 20th Floor, CIBC Square, Toronto, Ontario, M5J 0E7.

The Pools are managed by CIBC Asset Management Inc. (referred to as the *Manager*). The Manager is also the trustee and portfolio advisor of the Pools, and registrar and transfer agent of the Pools' mutual fund series. Each Pool is permitted to have an unlimited number of classes of units, each of which is issuable in an unlimited number of series. Each Pool may issue an unlimited number of units of each series. The following tables outline the series of units available for sale as of the date of these financial statements:

Series of Units Available for Sale:

Pools	Series A	Series F	Series S	ETF Series	Series O
CIBC Conservative Fixed Income Pool	✓	✓	✓	✓	✓
CIBC Core Fixed Income Pool	✓	✓	✓	✓	✓
CIBC Core Plus Fixed Income Pool	✓	✓	✓	✓	✓

The ETF Series are offered for sale on a continuous basis under the Pools' prospectus in common units (series) and trade on the Toronto Stock Exchange (referred to as the *TSX*) in Canadian dollars. The following table indicates the *TSX* ticker symbols for each ETF Series of units traded on the *TSX*, as at the date of these financial statements:

Pools	TSX Ticker Symbol
CIBC Conservative Fixed Income Pool, ETF Series	CCNS
CIBC Core Fixed Income Pool, ETF Series	CCRE
CIBC Core Plus Fixed Income Pool, ETF Series	CPLS

In the future, the offering of any series of a Pool may be terminated or additional series may be offered.

Each series of units may charge a different management fee and fixed administration fee. As a result, a separate net asset value per unit is calculated for each series of units.

Series A units are available to all investors, subject to certain minimum investment requirements. Investors may pay an upfront sales charge when purchasing Series A units.

Series F units are available, subject to the minimum investment requirement, to investors participating in programs such as clients of "fee-for-service" investment advisors, dealer-sponsored "wrap accounts", and others who pay an annual fee to their dealer, and to investors who have accounts with a discount broker (provided the discount broker offers Series F units on its platform). Instead of paying a sales charge, investors purchasing Series F units may pay fees to their dealer or discount broker for their services. We do not pay a trailing commission in respect of Series F units, allowing us to charge a lower annual management fee.

Series S units are only available for purchase by mutual funds, asset allocation services or discretionary managed accounts offered by the Manager or its affiliates. There is no sales charge payable on the purchase of Series S units.

ETF Series units are listed on the Toronto Stock Exchange (referred to as the *TSX*) and offered on a continuous basis. Investors are able to buy or sell ETF Series units on the *TSX* through registered brokers and dealers in the province or territory where the investor resides.

Series O units are available to certain investors, at our discretion, including institutional investors or segregated funds that use a fund-of-fund structure, other qualified investors who have entered into a Series O unit account agreement with us, investors whose dealer or discretionary manager offers separately managed accounts or similar programs and whose dealer or discretionary manager has entered into a Series O unit account agreement with us, and mutual funds managed by us or an affiliate that use a fund-of-fund structure.

The Manager reserves the right to fix a minimum initial and subsequent investment amount for purchases of Series O units at any time and, from time to time, as part of the criteria for approval. No management fee is charged in respect of Series O units; instead, a negotiated management fee is charged by us directly to, or as directed by, Series O unitholders. The Pools do not pay a Fixed Administration Fee in respect of Series O units. Investors do not pay a sales charge when purchasing Series O units.

The date upon which each Pool was established by Declaration of Trust (referred to as the *Date Established*) and the date upon which each series of units of each Pool was first sold to the public (referred to as the *Inception Date*) are reported in footnote *Organization of the Portfolio* on the Statements of Financial Position.

The Schedule of Investment Portfolio of each Pool is as at August 31, 2023. The Statements of Financial Position is as at August 31, 2023 and 2022. The Statements of Comprehensive Income, Statements of Changes in Net Assets Attributable To Holders of Redeemable Units, and the Statements of Cash Flows of each of the Pools are for the years ended August 31, 2023 and 2022.

These financial statements were approved for issuance by the Manager on November 1, 2023.

2. Summary of Significant Accounting Policies

These financial statements have been prepared in accordance with International Financial Reporting Standards (referred to as *IFRS*) as published by the International Accounting Standards Board (referred to as the *IASB*).

The financial statements have been prepared on a going concern basis using the historical-cost convention. However, each Pool is an investment entity and primarily all financial assets and financial liabilities are measured at fair value in accordance with International Financial Reporting Standards (referred to as *IFRS*). Accordingly, the Pools' accounting policies for measuring the fair value of investments and derivatives are consistent with those used in measuring the net asset value for transactions with unitholders. In applying *IFRS*, these financial statements include estimates and assumptions made by management that affect the reported amounts of assets, liabilities, income, and expenses during the reporting periods. However, existing circumstances and assumptions may change due to market changes or circumstances arising beyond the control of the Pools. Such changes are reflected in the assumptions when they occur.

These financial statements have been presented in Canadian dollars, which is the Pools' functional currency (unless otherwise noted).

a) Financial Instruments

Classification and recognition of financial instruments

In accordance with *IFRS 9 Financial Instruments*, financial assets are to be classified at initial recognition into one of the below categories based on the entity's business model for managing financial assets and the contractual cash flow characteristics of the financial assets. Those categories are:

- *Amortized Cost* - Financial Assets held within a business model whose objective is to collect cash flows and where the contractual cash flows of the assets are solely payments of principal and interest (*SPPI criterion*). Amortization of the asset is calculated utilizing the Effective Interest Rate Method.
- *Fair Value Through Other Comprehensive Income* (referred to as *FVOCI*) - Financial assets such as debt instruments that meet the *SPPI* criterion and are held within a business model with objectives that include both collecting the associated contractual cash flows and selling financial assets. Gains and losses are reclassified to Profit or Loss upon de-recognition for debt instruments but remain in Other Comprehensive Income for equity instruments.

- *Fair Value Through Profit or Loss* (referred to as *FVTPL*) - A financial asset is measured at *FVTPL* unless it is measured at Amortized Cost or *FVOCI*. Derivative contracts are measured at *FVTPL*. For all instruments classified as *FVTPL*, the gains and losses are recognized in Profit or Loss.

Financial liabilities are classified at *FVTPL* when they meet the definition of held-for-trading or when they are designated as *FVTPL* on initial recognition using the fair value option.

The Manager has assessed the business models of the Pools and has determined that the Pools' portfolio of financial assets and financial liabilities are managed and performance is evaluated on a fair value basis in accordance with the Pools' risk management and investment strategies; therefore, classification and measurement of financial assets is *FVTPL*.

All Pools have contractual obligations to distribute cash to the unitholders. As a result, the Pools' obligation for net assets attributable to holders of redeemable units represents a financial liability and is presented at the redemption amount.

b) Risk Management

The Pools' overall risk management approach includes formal guidelines that govern the extent of exposure to various types of risk, including diversification within asset classes and limits on the exposure to individual investments and counterparties. The Manager also has various internal controls to oversee the Pools' investment activities, including monitoring compliance with the investment objective and strategies, internal guidelines, and securities regulations. Please refer to each Pool's *Supplemental Schedule to Schedule of Investment Portfolio* for specific risk disclosures.

Fair value measurement of financial instruments

Financial instruments are valued at their fair value, which is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Refer to notes 3a to 3c for valuation of each specific type of financial instruments held by the Pools. The fair value of financial assets and liabilities traded in active markets are based on quoted market prices at the close of trading on the reporting date. The Pools use the last traded market price for both financial assets and financial liabilities where the last traded price falls within that day's bid-ask spread. In circumstances where the last traded price is not within the bid-ask spread, the Manager determines the point within the bid-ask spread that is most representative of fair value based on the specific facts and circumstances.

For financial assets and financial liabilities that are not traded in an active market, fair value is determined using valuation techniques.

The Pools classify fair value measurement within a hierarchy, which gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (referred to as *Level 1*) and the lowest priority to unobservable inputs (referred to as *Level 3*). The three levels of the fair value hierarchy are:

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;

Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly; and

Level 3: Inputs are unobservable for the asset or liability.

If inputs are used to measure an asset's or liability's fair value, the classification within the hierarchy is based on the lowest level input that is significant to the fair value measurement. Each Pool's fair value hierarchy classification of its assets and liabilities is included in the *Supplemental Schedule to Schedule of Investment Portfolio*.

The carrying values of all non-investment assets and liabilities approximate their fair values due to their short-term nature. Fair values are classified as Level 1 when the related security or derivative is actively traded and a quoted price is available. If an instrument classified as Level 1 subsequently ceases to be actively traded, it is transferred out of Level 1. In such cases, instruments are reclassified into Level 2, unless the measurement of its fair value requires the use of significant unobservable inputs, in which case it is classified as Level 3.

The Manager is responsible for performing the fair value measurements included in the financial statements of a Pool, including the Level 3 measurements. The Manager obtains pricing from third-party pricing vendors and the pricing is reviewed daily. At each financial reporting date, the Manager reviews and approves all Level 3 fair value measurements. The Pools also have a Valuation Committee, which meets quarterly to perform detailed reviews of the valuations of investments held by the Pools, which includes discussion on Level 3 measurements.

Credit risk

Credit risk is the risk that a counterparty to a financial instrument, such as a fixed income security or a derivative contract, will fail to discharge an obligation or commitment that it has entered into with a Pool. The value of fixed income securities and derivatives as presented on the Schedule of Investment Portfolio includes consideration of the creditworthiness of the issuer and, accordingly, represents the maximum credit risk exposure of the Pools.

The Pools may engage in securities lending transactions. The credit risk related to securities lending transactions is limited by the fact that the value of cash or securities held as collateral by the Pools in connection with these transactions is at least 102% of the fair value of the securities loaned. The collateral and loaned securities are marked to market on each business day. Further information regarding the collateral and securities on loan can be found in the footnotes to the Statements of Financial Position and in note 2f.

Currency risk

Currency risk is the risk that the value of an investment will fluctuate due to changes in foreign exchange rates.

Interest rate risk

Prices of fixed income securities generally increase when interest rates decline and decrease when interest rates rise. This risk is known as interest rate risk. Prices of longer-term fixed income securities will generally fluctuate more in response to interest rate changes than would shorter-term securities. Due to the nature of short-term fixed income securities with a remaining term-to-maturity of less than one year, these investments are not generally exposed to a significant risk that their value will fluctuate in response to changes in the prevailing levels of market interest rates.

Liquidity risk

The Pools are exposed to daily cash redemptions of redeemable units. Generally, the Pools retain sufficient cash and cash equivalent positions to maintain adequate liquidity. However, liquidity risk also involves the ability to sell an asset for cash easily and at a fair price. Some securities are illiquid due to legal restrictions on their resale, the nature of the investment, or simply a lack of interested buyers for a particular security or security type. Certain securities may become less liquid due to changes in market conditions, such as interest rate changes or market volatility, which could impair the ability of a Pool to sell such securities quickly or at a fair price. Difficulty in selling securities could result in a loss or lower return for a Pool.

Other price/market risk

Other price/market risk is the risk that the value of investments will fluctuate as a result of changes in market conditions. Several factors can influence market trends, such as economic developments, changes in interest rates, political changes, and catastrophic events, such as pandemics or disasters, which occur naturally or are exacerbated by climate change. Pandemics such as coronavirus disease 2019 (referred to as *COVID-19*) may adversely affect global markets and the performance of the Pools. All investments are exposed to other price/market risk.

c) Investment Transactions, Income Recognition, and Recognition of Realized and Unrealized Gains and Losses

- Each transaction of purchase or sale of a portfolio asset by a Pool is reflected in the net assets no later than the first computation of net assets made after the date on which the transaction becomes binding upon the Pool.
- Interest for distribution purposes shown on the Statements of Comprehensive Income represents the coupon interest received by the Pools accounted for on an accrual basis. The Pools do not amortize premiums paid or discounts received on the purchase of fixed income securities, except for zero coupon bonds, which are amortized on a straight-line basis.
- Dividend income is recorded on the ex-dividend date.

Notes to Financial Statements

- iv) Security transactions are recorded on a trade date basis. Securities that are exchange-traded are recorded at fair value established by the last traded market price when that price falls within that day's bid-ask spread. Debt securities are recorded at fair value, established by the last traded price on the Over-the-Counter (referred to as *OTC*) market when that price falls within that day's bid-ask spread. In circumstances where the last traded price is not within the bid-ask spread, the Manager determines the point within the bid-ask spread that is most representative of fair value based on the specific facts and circumstances. Unlisted securities are recorded at fair value using fair valuation techniques established by the Manager in establishing a fair value.
- v) Realized gains and losses on investments and unrealized appreciation or depreciation of investments are calculated using the average cost, excluding transaction costs, of the related investments.
- vi) Investment income is the sum of income paid to the Pool that is generated from a Pools' investment fund holdings.
- vii) Other income is the sum of income, excluding transaction costs, other than that which is separately classified on the Statements of Comprehensive Income.

d) Offsetting

Financial assets and liabilities are offset and the net amount reported in the Statements of Financial Position if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the asset and settle the liability simultaneously.

Where applicable, additional information can be found in the table *Offsetting Arrangements* as part of the *Supplemental Schedule to Schedule of Investment Portfolio*. This supplemental schedule discloses the *OTC* derivatives, which are subject to offsetting.

e) Portfolio Securities

The cost of securities of the Pools is determined in the following manner: securities are purchased and sold at a market-traded price to arrive at a value for the position traded. The total purchased value represents the total cost of the security to the Pool. When additional units of the same security are purchased, the cost of those additional units is added to the total security cost. When units of the same security are sold, the proportionate cost of the units of the security sold is deducted from the total security cost. If there is a return of capital paid by a security, the amount of this return of capital is deducted from the total security cost. This method of tracking security cost is known as "average cost" and the current total for any one security is referred to as the adjusted cost base or "ACB" of the security. Transaction costs incurred in portfolio transactions are excluded from the average cost of investments and are recognized immediately in Increase (Decrease) in Net Assets Attributable to Holders of Redeemable Units and are presented as a separate expense item in the financial statements.

The difference between the fair value of securities and their average cost, excluding transaction costs, represents the unrealized appreciation (depreciation) of investments. The applicable period change in unrealized appreciation (depreciation) of investments is included on the Statements of Comprehensive Income.

f) Securities Lending

A Pool may lend portfolio securities in order to earn additional revenue, which is disclosed on the Statements of Comprehensive Income. The loaned assets of any one Pool are not permitted to exceed 50% of the fair value of the assets of that Pool (excluding collateral debt for the loaned securities). The minimum allowable collateral is 102% of the market value of the loaned securities as per the requirements of National Instrument 81-102 - Investment Funds. Collateral can consist of the following:

- i) Cash;
- ii) Qualified securities;
- iii) Irrevocable letters of credit issued by a Canadian financial institution that is not the counterparty, or an affiliate counterparty, of the Pool in the transaction, if evidences of indebtedness of the Canadian financial institution that are rated as short-term debt by a designated credit rating organization, or its designated rating organization affiliate, have a designated rating; and
- iv) Securities that are immediately convertible into, or exchangeable for, securities of the same issuer, class, or type, and the same term, as the securities loaned.

The fair value of the loaned securities is determined on the close of any valuation date and any additional required collateral is delivered to the Pool on the next business day. The securities on loan continue to be included on the Schedule of Investment Portfolio and are included in the total value on the Statements of Financial Position in Investments (non-derivative financial assets) at fair value. Where applicable, a Pool's securities lending transactions are reported in footnote *Securities Lending* on the Statements of Financial Position.

National Instrument 81-106 – *Investment Fund Continuous Disclosure* requires a reconciliation of the gross income amount generated from the securities lending transactions of the Pools to the revenue from securities lending disclosed in the Pools' Statements of Comprehensive Income. The gross amount generated from securities lending includes interest paid on collateral, withholding taxes deducted, the fees paid to the Pools' lending agent and the securities lending revenue received by the Pools. Where applicable, the reconciliation can be found in the footnotes to the Pools' Statements of Comprehensive Income.

g) Foreign Exchange

The value of investments and other assets and liabilities denominated in foreign currencies is translated into Canadian dollars, which is the Pools' functional and presentation currency at the current rates prevailing on each Valuation Date.

Purchases and sales of investments, income, and expenses are translated into Canadian dollars, which is the Pools' functional and presentation currency at the foreign exchange rates prevailing on the dates of such transactions. Foreign currency translation gains (losses) on investments and income transactions are included in Net realized gain (loss) on foreign currency and in Income, respectively, on the Statements of Comprehensive Income.

h) Forward Foreign Currency Contracts

The Pools may enter into forward foreign currency contracts for either hedging or non-hedging purposes where such activity is consistent with their investment objectives and as permitted by the Canadian securities regulatory authorities.

Changes in the fair value of forward foreign currency contracts are included in derivative assets or derivative liabilities on the Statements of Financial Position and are recorded as an Increase (decrease) in unrealized appreciation (depreciation) of investments and derivatives during the applicable period on the Statements of Comprehensive Income.

The gain or loss arising from the difference between the value of the original forward foreign currency contract and the value of such contract at close or delivery is realized and recorded as Net realized gain (loss) on foreign currency for Pools that use the forward foreign currency contracts for hedging, or as Derivative income (loss) for Pools that do not use the forward foreign currency contracts for hedging.

i) Multi-Series Structured Pools

Each Pool may issue an unlimited number of classes of units, each of which is issuable in an unlimited number of series. The realized and unrealized capital gains or capital losses, income, and common expenses (other than fixed administration fees and management fees) of a Pool are allocated on each Valuation Date (as defined in note 3) to the unitholders in proportion to the respective prior day's net asset value, which includes the unitholder trade(s) dated for that day, of each series of units at the date on which the allocation is made. Fixed administration fees and management fees do not require allocation. All series-specific operating expenses (except fund costs) are paid by the Manager in respect of Series A, Series F, Series S and ETF Series units in exchange for the Pool paying a Fixed Administration Fee with respect to those series. The Pool does not pay a Fixed Administration Fee in respect of Series O units. The Manager pays the Pool's operating expenses that are not fund costs allocated to Series O units of the Pools.

j) Loans and Receivables, Other Assets and Liabilities

Loans and receivables, other assets and liabilities are recorded at cost, which approximates their fair value with the exception of net assets attributable to holders of redeemable units, which are presented at the redemption value.

k) Increase (Decrease) in Net Assets Attributable to Holders of Redeemable Units per Unit

Increase (decrease) in net assets attributable to holders of redeemable units per unit of each series is calculated by dividing the Increase (decrease) in net assets attributable to holders of redeemable units (excluding distributions), as reported in the Statements of Comprehensive Income, by the weighted average number of units in issue during the related period.

3. Valuation of Investments

The valuation date for a Pool is any day when the Manager's head office is open for business (referred to as *Valuation Date*). The Manager may, at its discretion, establish other Valuation Dates. The value of the investments or assets of a Pool is determined as follows:

a) Cash and Other Assets

Cash, accounts receivable, dividends receivable, distributions receivable, and interest receivable are valued at their fair value or at their recorded cost.

b) Mutual Fund Units

Units of each mutual fund in which a Pool invests are fair valued at the most recent net asset value quoted by the trustee or manager of the mutual fund on the Valuation Date.

c) Other Securities

All other securities held by the Pools will be fair valued in accordance with the laws of the Canadian securities regulatory authorities, where applicable, and using fair valuation techniques that most accurately reflect their current value as determined by the Manager.

The value of any security or other property of a Pool for which a market quotation is not readily available or where, in the opinion of the Manager, the market quotations do not properly reflect the current value of such securities, will be determined by the Manager by valuing the securities at their fair value. In such situations, fair value will be determined using fair valuation techniques that most accurately reflect their fair value as established by the Manager.

4. Interests in Underlying Funds

The Pools invest in other investment funds (referred to as *Underlying Funds*). Each Underlying Fund invests in a portfolio of assets to generate returns in the form of investment income and capital appreciation for its unitholders. Each Underlying Fund finances its operations primarily through the issuance of redeemable units, which are puttable at the unitholder's option and entitle the unitholder to a proportionate share of the Underlying Fund's net assets. The Pools' interests in Underlying Funds held in the form of redeemable units are reported in its Schedule of Investments at fair value, which represents the Pools' maximum exposure on those investments. The Pools' interests in Underlying Funds as at the prior year period ends are presented in the Financial Instrument Risks – Concentration Risks section in the *Supplemental Schedule to Schedule of Investment Portfolio*. Distributions earned from Underlying Funds are included in Investment Income in the Statements of Comprehensive Income. The total realized and change in unrealized gains (losses) arising from Underlying Funds are also included in the Statements of Comprehensive Income. The Pools do not provide any additional significant financial or other support to Underlying Funds.

Where applicable, the table *Interests in Underlying Funds* is presented as part of the *Supplemental Schedule to Schedule of Investment Portfolio*, which provides additional information on the Pools' investments in Underlying Funds where the ownership interest exceeds 20% of each Underlying Fund.

5. Redeemable Units Issued and Outstanding

Each Pool is permitted to have an unlimited number of classes of units, each of which is issuable in an unlimited number of series. Each series may issue an unlimited number of units. The outstanding units represent the net assets attributable to holders of redeemable units of the Pools. Each unit has no par value and the value of each unit is the net asset value determined on each valuation date. Settlement of the cost for units issued is completed as per laws of the Canadian securities regulatory authorities in place at the time of issue. Distributions made by the Pools and reinvested by unitholders in additional units also constitute issued redeemable units of the Pools.

Units are redeemed at the net assets attributable to holders of a redeemable unit per unit of each series of units of the Pool. A right to redeem units of a Pool may be suspended with the approval of the Canadian securities regulatory authorities or when normal trading is suspended on a stock, options, or futures exchange in Canada or outside of Canada on which securities or derivatives that make up more than 50% of the value or underlying market exposure of the total assets of the Pool, not including any liabilities of the Pool, are traded and when those securities or derivatives are not traded on any other exchange that represents a reasonably practical alternative for the Pool. The Pools are not subject to any externally imposed capital requirements.

The capital received by a Pool is utilized within the respective investment mandate of the Pool. This includes, for all Pools, the ability to make liquidity available to satisfy unitholder unit redemption requirements upon unitholder request.

Changes in issued and outstanding units for the years ended August 31, 2023 and 2022 can be found on the Statements of Changes in Net Assets Attributable to Holders of Redeemable Units.

6. Management Fees, Fixed Administration Fees, and Operating Expenses

Management fees are based on the net asset value of the Pools and are calculated daily and paid monthly. Management fees are paid to the Manager in consideration for providing, or arranging for the provision of, management, distribution, and portfolio advisory services. Advertising and promotional expenses, office overhead expenses related to the Manager's activities, trailing commissions are paid by the Manager out of the management fees received from the Pools.

For Series A, Series F, Series S and ETF Series units, the Pools may charge up to a maximum annual management fee. The maximum annual management fee expressed as a percentage of the average net asset value for each series of units of the Pool is reported in footnote *Maximum Chargeable Management Fee* on the Statements of Comprehensive Income. For Series O units, management fees are negotiated with and paid by, or as directed by, unitholders, or dealers and discretionary managers on behalf of unitholders.

The Manager may also charge to the Pool less than the maximum management fee noted in footnote *Maximum Chargeable Management Fee Rates* on the Statements of Comprehensive Income, resulting in the Manager waiving management fees. At its sole discretion, the Manager may stop waiving management fees at any time.

In some cases, the Manager may charge management fees to a Pool that are less than the management fees the Manager is entitled to charge in respect of certain investors in a Pool. The difference in the amount of the management fees will be paid out by the Pool to the applicable investors as a distribution of additional units of the Pool (referred to as *Management Fee Distributions*). Management fee distributions are negotiable between the Manager and the investor and are dependent primarily on the size of the investor's investment in the Pool. Management fee distributions paid to qualified investors do not adversely impact the Pool or any of the Pool's other investors. The Manager may increase or decrease the amount of management fee distributions to certain investors from time to time.

The Manager pays the operating expenses of the Pools (other than fund costs) in respect of Series A, Series F, Series S and ETF Series, which may include but are not limited to, operating and administrative costs; regulatory fees; audit, and legal fees and expenses; trustee, safekeeping, custodial, and any agency fees; and investor servicing costs and costs of unitholder reports, prospectuses, Fund Facts, and other reports, in exchange for the payment by the Pools of a fixed rate administration fee to the Manager with respect to those series of units (referred to as a *Fixed Administration Fee*). The fixed administration fee will be equal to a specified percentage of the net asset value of each series of units of the Pools, calculated and accrued daily and paid monthly. The fixed administration fee charged for Series A, Series F, Series S and ETF Series of the Pools is reported in the footnote *Fixed Administration Fee* on the Statements of Comprehensive Income. For Series O, no fixed administration fee will be charged. The Manager pays the Pool's operating expenses that are not fund costs allocated to Series O units of the Pool. The fixed administration fee payable by the Pool, may, in any particular period, exceed or be lower than the expenses we incur in providing such services to the Pools.

In addition to the management fees and fixed administration fee, the Pools is responsible for fund costs, which include, but are not limited to, all fees and expenses relating to the Independent Review Committee and expenses associated with borrowing and interest. Transaction costs which can include brokerage fees, spreads, commissions and all other securities transaction fees are also paid by the Pools.

The Manager may, in some cases, waive all or a portion of the fixed administration fee paid by the Pools with respect to Series A, Series F, Series S or ETF Series units of the Pools. The decision to waive some or all of the fixed administration fee is at the Manager's discretion and may continue indefinitely or may be terminated at any time without notice to unitholders. Operating expenses payable by the Manager or by the Pools as part of the fund costs may include services provided by the Manager or its affiliates.

Where a Pool invests in units of an Underlying Fund, the Pool does not pay duplicate management fees on the portion of its assets that it invests in units of the Underlying Fund. In addition, the Pool will not pay sales fees or redemption fees with respect to the purchase or redemption by it of units of the Underlying Fund. The manager of the Underlying Funds may, in some cases, waive all or a portion of an Underlying Fund's management fee, if any, and/or absorb all or a portion of an Underlying Fund's operating expenses.

Notes to Financial Statements

7. Income Taxes and Withholding Taxes

All of the Pools qualify as mutual fund trusts under the *Income Tax Act* (Canada). No income tax would be payable by the Pools on net income and/or net realized capital gains that are distributed to unitholders. In addition, for all of the Pools, income taxes payable on undistributed net realized capital gains are refundable on a formula basis when units of the Pools are redeemed. Sufficient net income and realized capital gains of the Pools have been, or will be, distributed to the unitholders such that no tax is payable by the Pools and, accordingly, no provision for income taxes has been made in the financial statements. Occasionally, a Pool may pay distributions in excess of net income and realized capital gains of the Pool. This excess distribution is called a return of capital and is non-taxable for the unitholders. However, a return of capital will reduce the adjusted cost base of the unitholders' units for tax purposes.

Non-capital losses are available to be carried forward for 20 years.

Capital losses for income tax purposes may be carried forward indefinitely and applied against capital gains realized in future years. Where applicable, a Pool's net capital and non-capital losses are reported in footnote *Net Capital and Non-Capital Losses* on the Statements of Changes in Net Assets Attributable to Holders of Redeemable Units.

The Pools have a taxation year-end of December 15.

The Pools may incur withholding taxes imposed by certain countries on investment income and capital gains. Such income and gains are recorded on a gross basis and the related withholding taxes are shown as a separate expense in the Statements of Comprehensive Income.

8. Brokerage Commissions and Fees

The total commissions paid by the Pool to brokers in connection with portfolio transactions are reported in footnote *Brokerage Commissions and Fees* on the Statements of Comprehensive Income of each Pool. In allocating brokerage business to a dealer, consideration may be given by the portfolio advisor of the Pool to the provision of goods and services by the dealer or a third party, other than order execution (referred to in the industry as soft dollar arrangements). These goods and services are paid for with a portion of brokerage commissions and assist the portfolio advisor with their investment decision-making services to the Pool or relate directly to the execution of portfolio transactions on behalf of the Pool. The services are supplied by the dealer executing the trade or by a third party and paid for by that dealer. The total soft dollar payments paid by the Pool to brokers are reported in footnote *Brokerage Commissions and Fees* on the Statements of Comprehensive Income of each Pool.

9. Related Party Transactions

Canadian Imperial Bank of Commerce (referred to as *CIBC*) and its affiliates have the following roles and responsibilities with respect to the Pools and receive the fees described below in connection with their roles and responsibilities. Management fees payable and other accrued expenses on the Statements of Financial Position are amounts generally payable to a related party of the Pool.

Manager, Trustee, and Portfolio Advisor of the Pools

CIBC Asset Management Inc. (referred to as *CAMI*), a wholly owned subsidiary of CIBC, is the Manager, trustee, and portfolio advisor of each of the Pools.

The Manager pays the operating expenses of the Pools (other than fund costs) in respect of Series A, Series F, Series S and ETF Series, which may include, but are not limited to, operating and administrative costs; regulatory fees; audit, and legal fees and expenses; trustee, safekeeping, custodial, and any agency fees; and investor servicing costs and costs of unitholder reports, prospectuses, Fund Facts, and other reports, in exchange for the payment by the Pool of a fixed administration fee to the Manager with respect to those series of units. The dollar amount (including all applicable taxes) of the fixed administration fee that the Manager receives from the Pool is reported on the Statements of Comprehensive Income as Fixed administration fees.

Brokerage Arrangements and Soft Dollars

The portfolio advisor and portfolio sub-advisors make decisions, including the selection of markets and dealers and the negotiation of commissions, with respect to the purchase and sale of portfolio securities, and the execution of portfolio transactions. Brokerage business may be allocated by the portfolio advisor or portfolio sub-advisors to CIBC World Markets Inc. and CIBC World Markets Corp., each a subsidiary of CIBC. The total commissions paid to related brokers in connection with portfolio transactions are reported in footnote *Brokerage Commissions and Fees* on the Statements of Comprehensive Income of each Pool.

Dealers, including CIBC World Markets Inc. and CIBC World Markets Corp., may furnish goods and services, other than order execution, to the portfolio advisor or portfolio sub-advisors, that process trades through them (referred to in the industry as "soft-dollar" arrangements). These goods and services are paid for with a portion of brokerage commissions and assist the portfolio advisor or portfolio sub-advisors with their investment decision-making services to the Pools or relate directly to executing portfolio transactions on behalf of the Pools. They are supplied by the dealer executing the trade or by a third party and paid for by that dealer. As per the terms of the portfolio advisory agreement and sub-advisory agreements, such soft dollar arrangements are in compliance with applicable laws. Custodial fees directly related to portfolio transactions incurred by a Pool, or a portion of a Pool, for which CAMI acts as advisor, shall be paid by CAMI and/or dealer(s) directed by CAMI. The total soft dollar payments paid by the Pool to related brokers are reported in footnote *Brokerage Commissions and Fees* on the Statements of Comprehensive Income of each Pool.

Designated Broker and Dealer

CAMI has entered into an agreement with CIBC World Markets Inc., an affiliate of CAMI, to act as designated broker and dealer for distribution of the ETF Series of the Pools, on terms and conditions that are comparable to arm's length agreements in the exchanged traded funds industry.

Custodian

CIBC Mellon Trust Company is the custodian of the Pools (referred to as the *Custodian*). The Custodian holds cash and securities for the Pools and ensures that those assets are kept separate from any other cash or securities that the Custodian might be holding. The Custodian also provides other services to the Pools including record keeping and processing of foreign exchange transactions. The fees and spreads for the services of the Custodian are paid by the Manager in exchange for the Pools charging a Fixed Administration Fee. CIBC owns a 50% interest in the Custodian.

Service Provider

CIBC Mellon Global Securities Services Company (referred to as *CIBC GSS*) provides certain services to the Pools, including fund accounting and reporting, and portfolio valuation. CIBC indirectly owns a 50% interest in CIBC GSS. The Manager pays the custodial fees (including all applicable taxes) to CIBC Mellon Trust Company and the fees for fund accounting, reporting, and fund valuation (including all applicable taxes) to CIBC GSS and in return the Manager charges a fixed administration fee to the Pools.

10. Hedging

Certain foreign-currency-denominated positions have been hedged, or partially hedged, by forward foreign currency contracts as part of the investment strategies of the Pool. These hedges are indicated by a hedging reference number on the Schedule of Investment Portfolio and a corresponding hedging reference number on the Schedule of Derivative Assets and Liabilities Forward Foreign Currency Contract.

INDEPENDENT AUDITOR'S REPORT

To the Unitholders of

CIBC Conservative Fixed Income Pool
CIBC Core Fixed Income Pool
CIBC Core Plus Fixed Income Pool

(Collectively, the "Pools")

Opinion

We have audited the financial statements of the Pools, which comprise the statements of financial position as at August 31, 2023 and 2022, and the statements of comprehensive income, statements of changes in net assets attributable to holders of redeemable units and statements of cash flows for the periods then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Pools as at August 31, 2023 and 2022, and their financial performance and cash flows for the periods then ended in accordance with International Financial Reporting Standards (referred to as IFRSs).

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Pools in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other Information

Management is responsible for the other information. The other information comprises the Management Report of Fund Performance of the Pools. Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information, and in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

We obtained the Management Report of Fund Performance of the Pools prior to the date of this auditor's report. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact in this auditor's report. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with IFRSs, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing each Pool's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Pools or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Pools' financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Canadian generally accepted auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Pools' internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Pools' ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Pools to cease to continue as a going concern.
- Evaluate the overall presentation, structure, and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

The engagement partner on the audit resulting in this independent auditor's report is Gary Chin.
